Forecast For Wales
Issued by Met Office Exeter
at 0400 on Saturday 18 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Staying dry and settled this weekend.

Today:
Mist and fog in places at first, this locally persisting all day in the east. Otherwise many places remaining cloudy and grey but much of west Wales turning increasingly sunny. Chilly in the east but feeling mild in the sunshine. Maximum temperature 11 deg C (52 deg F).

Tonight:
Staying generally cloudy in the east with any clear spells becoming confined to western coastal region. Mist and fog forming especially over the hills. Locally frosty in the west. Minimum temperature -2 deg C (28 deg F).

Sunday:
Another generally cloudy and rather chilly day in central and eastern parts of Wales with mist and murk slowly lifting. Sunnier in western areas and feeling quite mild here. Maximum temperature 10 deg C (50 deg F).

Outlook for Monday to Wednesday:
Remaining dry and settled. Many areas cloudy at first but some sunshine is likely, especially on Tuesday and Wednesday. Frost and fog in places overnight and feeling increasingly cold.
